

ME students of IEDC get practical exposure to solar and biogas systems

The College unit of the Innovation and Entrepreneurship Development Centre (IEDC) organised two hands-on practical sessions for the benefit of the Mechanical Engineering students of the Centre. One of the sessions was on solar energy and it was conducted in the College Auditorium on 26.10.2017. The other session was on bio-gas and it was held near the premises of the College Canteen on 13.11.2017. The resource persons for the sessions were Mr. Gopalakrishnan C S and Mr. Pradeesh P R, both of whom are technical staff in the service of VICT.
