

3-Day FDP on Advanced Topics in Signal & Image Processing

The Dept. of Electronics & Communication Engineering of the College, jointly with Indian Society for Technical Education (ISTE), Institution of Engineers (India) (IE(I)) and Institution of Electronics and Telecommunication Engineers (IETE), organized a Three-day Faculty Development Programme on Advanced Topics in Signal & Image Processing during 29.11.17-01.12.17. Dr. Sudha Balagopalan, Principal, presided over the inaugural function and Dr. R. Gopikakumari (Professor, CUSAT) inaugurated the Programme.

The inaugural ceremony was followed by lecture on Digital Image Processing by Dr. R. Gopikakumari. In the afternoon, there was a talk on Sparsity in Signal Processing by Dr. Sudhish N George (Asst. Prof., NIT Calicut).

On the second day, there was a lecture on Speech & Audio Signal Processing by Dr. Govind D (Asst. Prof., School of Engineering, Amrita Vishwa Vidyapeetham, Coimbatore) in the

forenoon and a talk on Pattern Recognition by Mr. Hari C V (Asst. Prof., Rajagiri School of Engg) in the afternoon.

On the last day, in the forenoon, there was a lecture on Wavelet Theory by Dr. Vinu Thomas (Prof. & Head of ECE Dept., Model Engg. College) and in the afternoon, on Advanced Features & Tool Boxes of MatLab by Mr. Pramod Kumar Naik (CoreEL Technologies, Bangalore).

There were 11 external participants and 30 internal participants in the FDP.
