

CE Dept organizes workshop on Concrete Mix Design and Quality Control

The CE Dept. of the College organized a half-day workshop on Concrete Mix Design and Quality Control during the afternoon session of 05.12.2017. As many as 24 persons from different organizations, along with the staff members of Dept. of CE, participated in the programme. Prof. Jayadevan V, Visiting Professor, CE Dept., handled the technical session and it was well received by the participants. This was followed by an interactive session. The external participants visited the Structural Engineering Lab and they showed a keen interest in the experiments being conducted in the Lab.
