

CE Dept organises workshops on Mix Design and Total Station for Polytechnic College students

The Department of Civil Engineering of the College conducted two separate workshops in the College for the benefit of students of Polytechnic Colleges. The first workshop, held in the forenoon of 14.12.2017, was on Mix Design. The resource person for the workshop was Prof. Jayadevan V, Visiting Professor of the Department. This was followed by a visit to the Structural Engineering Lab guided by Dr. C Justine Jose, Professor, Dept. of CE. The second workshop, held during the afternoon session of the same day, was on "Surveying Using Total Station". Ms. Chaithra C (AP, CE Dept.) explained the working Total Station and Mr. Mohanan M S (Trade Instructor, CE Dept.) organised a practical session in the outdoors.
