

NSS volunteers install electrical bells at Autism Centre, Aranattukara

As a part of technical works, a group of NSS volunteers from Vidya installed electrical bells in 3 different rooms at Autism Centre, Aranattukara, on 23.12.2017. The alarm is useful in detecting movement of autistic students. Ms. Sooja, who was in charge of the centre, appreciated the volunteers for the help. Volunteers repaired and changed the faulty switches of different rooms.
