

An invited talk on “How to Achieve Your Aim” for ME and PE students

An invited talk on “How to Achieve Your Aim” was delivered to the students of S8 B Tech (ME and PE) batches on 04.01.2018 in the Seminar Hall in the Decennial Block. The resource person for the program was Mr. Devanand, an industrialist and entrepreneur, who has several years of experience in working in industries like TATA Steel, etc. The talk was highly informative and beneficial to the students as it covered various aspects of professional life like selection, progress and succeeding in the right career as an engineer.
