

Risk Based Thinking in the context of ISO 9001:2015 Standards

Awareness session on ISO 9001:2015 held

In the context of the upcoming ISO Surveillance Audit, the Management Representative Team of the College organised an awareness session on the various clauses of the ISO 9001:2015 Standards. The focus of the session was the changes that had been effected *vis-a-vis* the standards specified in ISO 9001:2008. The most important change was making risk- and opportunity based thinking an integral part of the Standards.

The session was held in the Seminar Hall of the MCA Dept at 12.00 noon on 27.02.2018. Dr V N Krishnachandran, Vice-Principal, welcomed the participants and introduced the context of the meeting. Ms Mary Verghese, Management Representative and Asso. Prof. of EEE, explained the various clauses in ISO 9001:2018 Standards. ISO representatives of all Departments, both academic and non-academic, participated in the session.
