

The unsung hero of Vidya! ... Bags multiple top internships!

Mr. Anand Sunil Krishna
B. Tech CSE

Congratulations to Mr. Anand Krishna Sunil B. Tech CSE 2018 pass out batch for bagging multiple top-notch internships. Anand is currently, doing his internship at Nouveau Labs, Bangalore, where he is working on creating “chat bots” using AI technologies.

Anand Krishna Sunil – CSE
2018 Pass out

Along with Anand, a few other students of the 2018 pass out batches have been shortlisted for the award of internships: Anagha Anand R, Davis Raimon, Athira C S, Aiswarya K P, Sundeeep Kumar and Arjith Ramu. These internships start with a pay of Rs.15,000 to Rs.20,000 during the internship period and a post-internship salary ranging between Rs.6 lakh PA to Rs.10 lakh PA. The offers to participate in the selection process have come from companies like Aspiring Minds, Nouveau Labs, Informatica, Deloitte Haskins, etc.

Earlier, during the beginning of the academic year 2017-18, nine students from the final year B Tech batches of CSE and ECE branches participated as two teams in executing assignments as remote internships at TCS, Kochi.

These achievements may be attributed to their top grades in the aptitude tests conducted by companies like TCS, Wheebox WEST, and AMCAT pre-placement assessment tests. On a preliminary analysis it can be noted that these students have topped the grades across key assessment segments, viz. Quantitative Ability, Logical Reasoning Skills, Programming Skills, English Comprehension, and in their respective Subject Knowledge Domains – Mechanical, Electrical, Civil, Computer Science, Electronics, etc.

Opportunities for internships and placements have also come by way of contests like those offered on the TCS Campus Commune platform – CODEVITA, ENGNIX, Testimony, etc., and by participating in industry sponsored contests like HACKATHONS.

Students beware: this is the way internships and placements are going to come about in the coming years.
