

ECE HoD presents two research papers in National Conferences

Dr. S Swapna Kumar (HoD,ECE) presented two research papers in National Conferences:

- A paper entitled “Melanoma Detection Using Deep Learning and ABCD Rule” in the National Conference on Advanced Innovations in VLSI, Embedded Systems, Signal Processing & Communications '18 jointly organized in the College by ECE Dept of the College, KSCSTE and IETE (Kochi Centre) on 09.10.03.2018.
- A paper entitled “Novel Key Distribution and Secure Communication in Wireless Sensor Networking” in the Kerala Technological Congress 2018 (KETCON 2018) hosted by Sahrdaya College of Engineering & Technology, Kodakara, during 23-23 February 2018. KETCON 2018 is an initiative of the Centre for Engineering Research and

Development (CERD), the research arm of KTU, to provide a platform to the students, academia and the practicing professionals in engineering and technology to discuss and exchange their ideas and research experience for the benefit of the society.
