

# A girl student is commuting to the College on a cycle everyday!!

“A girl student is commuting to College on a cycle everyday!!” Has this any news value? *News & Events* Editorial Team thinks so especially in the context of the current craze for bikes (motor, of course)!

Blessy Theres Paul V (S6 B Tech (CE)) has set an example for all girl students (also, for all boy students!) by coming to the College riding a bicycle every day. Her silent efforts for regaining popularity for a mode of transport which is losing glamour and glory has been much appreciated. One person who was particularly impressed by this initiative was Dr S Swapnakumar, HoD, ECE, and he made a token award to Blessy in appreciation of her efforts in improving the environment by commuting to the College on a cycle everyday.
