

CE Dept faculty members visit flood affected houses

In an effort to assess the extent of damages to property and houses due to the recent floods, a team of faculty members of the Civil Engineering Department of the College visited the flood affected houses in different parts of Thrissur District on 21 August 2018. Five groups of faculty members of other department and students had also been formed for the same purpose. Detailed data relating to the damages have been collected and it would help in the preparation of estimates of structural damages of the houses.
