

## **Students and teachers surprise each other! MCA Dept celebrates Teachers' Day**

The MCA students sprang a surprise on their teachers by organising a programme without prior announcement on 5 September 2018 to show their love and respect to their teachers. The programme was simple in ceremonies but deep in meaning. There were no big speeches, only cake-cutting, lighting of candles and draping teachers with symbolic *ponnadas*.

In return, the teachers sprang a surprise on the students by inviting, to the dismay of all, three students for bestowing special honours. These students had been regular school teachers before joining the MCA programme in this College. The Head of Department presented them mementos and requested them to talk about their experiences as teachers. The brief speeches by the teacher-turned students turned out to be the

most memorable moments of the celebrations.
