

CSI and IE student chapters organise technical session on “Advanced Python and IoT”

A technical session on “Advanced Python Programming and IoT” was conducted under the banner of CSI and IE student chapters in the Advanced Computer Lab on 22 October 2018. The program began with a welcome address by Dr Ramani Bai (Head, CSE Dept) followed by presidential address by Dr Saji C B, Principal. An introductory speech was given by Mr Paul Chakola (Head, Placement & Training Dept).

The first session on Advanced Python Programming was handled by Mr Jeethu Joseph, Enterprise Architect, TCS Analytics and Insights Group. The second session based on Internet of Things, conducted in the afternoon, was handled by Mr Jerrin Thomas and Mr Anand G, Developers, TCS.
