

VCAIR organizes technical session on self-driving cars

Vidya Center for Artificial Intelligence and Research (VCAIR) organized a technical session on “Self-Driving Cars” by Robotics and Cognitive Systems in TATA Consultancy Services (TCS) on 31 January 2019 at Advanced Computing Lab. Dr Ramani Bai V (Prof and Head, CSE Dept) gave the welcome address. Dr Saji C B (Principal, VAST) delivered the presidential address. Er G Mohanachandran (Executive Director, VICT) officially inaugurated the function by lighting the traditional lamp and delivered the inaugural address. Mr Jaiju Jacob, resource person from TCS who is currently working as a platform architect for TCS Robotics team, offered an introduction about the session. Mr Sarath Peter (AI Club Member, VCAIR) delivered vote of thanks.

The session gave the attendees an insight into the different stages of development involved in self-driving cars. Concepts of robotic operating systems and connected cars were

introduced in the session. The session also showed the self driving projects implemented in Kerala
