(S4 Mtech CSE)

Dr. Ramani Bai V.
(HOD, CSE)

M Tech (CSE) student presents research paper in international conference

Shahina K K (S4 M Tech CSE) and Dr Ramani Bai V (Prof and Head, CSE Dept) of Vidya jointly presented a research paper titled "A Comparative Study of Survival Analysis Models" in the International Conference on Multidisciplinary Engineering Sciences And Information Technology (ICMESIT – 19) organised by IES College of Engineering, Chittilappilly, and Institute for Engineering Research and Publication (IFERP) during 2 – 3 May 2019. The main objectives of the research paper were to familiarise the terms and concepts related to survival analysis and to do a comparative study of the prediction capability of various state-of-the-art survival analysis models based on their C-Index probability.
