how to look forward.

NSS Units of Vidya look back

Journey of Vidya's NSS units from 2017 to 2019

For the past several years, one of the most active and vibrant wings of Vidya has been the NSS units, and they continue to be active and vibrant. With four units and as many Programme Officers, the NSS has provided a great platform for the student community to reach out to the society at large, to implement innovative and socially relevant programmes, to provide a helping hand to the under-privileged and marginalised sections of society and to carry forward several of the programmes initiated by the Government at the State level.

Recently, the NSS units have brought out a copiously illustrated book running to 86 pages giving crisp and short accounts of all the activities carried out by the Units during the two academic years 2017-18 and 2018-19. The Editorial Team of *News & Events* is more than happy to share this fascinating document with the readers of these pages.
