

University appreciates Dr Deepa Mohan and team for their dedicated hard work

They rarely come to the limelight. Their work is rarely appreciated. They are the personnel in the College who toil hard day and night to ensure that the results of University Examinations written by students of other colleges are published in time!

Dr Deepa
Mohan

Recently everybody in the campus was delighted when they came to know of a mail from Dr Vrinda V Nair, Controller of Examinations, APJ Abdul Kalam Technological University

congratulating the Camp Officer, Principal and other staff of the college for the timely completion of the valuation of S8 B Tech answer scripts allotted to the College. Of course, Vidya is not alone in accomplishing this task. Vidya shared the honour with a small group of five other engineering colleges.

This is definitely a great appreciation and recognition for the dedication, hard work and team effort put in by Dr Deepa Mohan (Asso Prof, CE Dept) who is also serving as the Camp Officer of the Centralised Valuation Camp of APJAKTU currently running in Vidya. The Editorial Team of *News & Events* extends a hearty appreciation to Dr Deepa Mohan and her team for their praiseworthy accomplishment. This appreciation is also an honour for the College, it is also a great responsibility as it is a challenge to attain bigger achievements in the years to come.
