Ramayana Parayanam crosses 25000 downloads within a week of its release!

It was a success that transcended the imaginations, a success never felt possible even in dreams. This was how everybody in Vidya received the news about the expanding popularity and acceptability of the Android app "Ramayana Parayanam" developed in the MCA Dept of the College. The app recorded more than 25,000 downloads within one week of its release to the public. The app was made available to the public only on 8 July 2019 (Monday) and by the next Monday the app recorded more than 25000 downloads.

This success is essentially due to the support of all in the Vidya family, with a little extra effort by the faculty and

staff of the MCA Dept and also the tremendous effort put in Mr Arun K L (AP, ME Dept). Due to the combined effort of all, news about the app found a place in both print and electronic media. The prominent newspapers carried the news in all their editions in Kerala.
