

Vidya's Pride: CSE student participates in Google Developer Students Club Summit in Goa

Yes, it was an event organised by Google.

There were only about 175 student ambassadors from around 100 cities across 170 colleges across the country attending the three-day summit. And, Hemant Janesh (S7 B Tech CSE A) from Vidya was one among those 175 students ambassadors participating in the Summit. A great achievement by Hemant Janesh indeed; a moment of pride for Vidya as well! Hearty congratulations from the Editorial Team of News & Events to Hemant Janesh for his unique accomplishment.

The DSC Summit was held at The Leela Goa, a beach and riverside luxury resort in Goa, during 23 – 25 August 2019.

The Developer Students Club is an initiative under Google Developers where Google collaborates with University students to hold workshops, hackathons and other technical events under its banner. The Summit was attended by 175+ DSC Leads all over the country in addition to multiple Googlers and NGOs. The Leads worked together at the Summit to solve issues faced by these NGOs and came up with several solutions.

The DSC VAST extends their invitation to all students to be a part of the club. Interested students can register through this link: <http://bit.ly/dscvastreg>
