"Wednesday AI" holds second workshop on Learning Data Science using Pandas

"Wednesday AI" organised the second workshop on Pandas on 22 January 2020. The first workshop had been organised on 15 January 2020. The basics of Pandas and its importance in Machine Learning were discussed in the second workshop. The session was attended by around 20 students and faculty members from various branches. The resource person for the session was Ms Athira (S8 B Tech CSE A) who was also pursuing a course in Machine Learning under ASAP.

At the end of the session, the participants honoured the resource persons by presenting them with mementos as tokens of love and respect for them. Wednesday AI s planning to conduct the next session on 29 January 2020 from 9:30 AM to 12:45 PM

and will cover the topic "Exploring Research and Projects through ML and Deep Learning". Mr Ram Prasad K, Founder and Director, VisionCog Research and Development Pvt. Ltd is expected to participate in the session on 29 janury 2020.
