

Innovature Labs (Japan) and Accenta Education recruit Vidya students

Innovature Labs is a Tokyo, Japan based

company with office s in Kochi, India and USA. They are technology product company working on tracking solutions and is also into providing other business solution services.

One of our final year students, Vishnu Shankar (S8 B Tech (CSE)) has been placed with the company.

Accenta Education, based out of Thrissur with presence across several states in India is mainly into corporate training and into providing communication and language training. Students across different branches evinced interest in this profile and have got placed with the organization. They conducted a campus recruitment drive in Vidya for the position of Communicative English Trainers on 17 January 2020.

Congratulations to all placed students

Final year students placed with Mr. Dybin G, GM and Mr. Akshay, Team Lead of Accenta Education.

Cross section of the 2020 pass out batch students placed with Sutherland for their NV process
