

Placements at Hexaware Technologies and Wipro

Placements at Hexaware Technologies

Hexaware Technologies is one of the leading information technology company with offices at Mumbai, Singapore, London, and New Jersey. As part of their recruitment drive for the 2020 pass out batch, the online assessment was held at our campus on 10 February 2020. This process was attended by students from nearby engineering colleges also. The final interviews were held at Kothamangalam and offers were given to six of our students.
