

42 CSE students complete Google Cloud Associate Engineer course

In an effort to put to creative use of the COVID 19 related holidays, as many as 42 final year (B Tech CSE A Batch) students of Vidya completed the Google Cloud Associate Engineer Course under the expert guidance of Ravishankar S (AP, CSE Dept) and Mr Hemanth Janesh (Student Coordinator and DSC Lead at Vidya) on 29 March 2020. Mr Akshit Jain (Program Manager at Google Cloud India) and team gave round the clock support in providing unmatched training to the students.

What is Google Cloud?

Google Cloud Platform (GCP), offered by Google, is a suite of cloud computing services that runs on the same infrastructure that Google uses internally for its end-user products, such as Google Search, Gmail and YouTube. Alongside a set of management tools, it provides a series of modular cloud services including computing, data storage, data analytics and machine learning. *(Wikipedia)*

The course was provided to the students as a part of the joint venture between Additional Skill Acquisition Programme (ASAP) Kerala and Google Cloud. Top performing students were each gifted a Google Home Mini as a token of appreciation for their dedication and hard work! The five-part course was completed by the students via Coursera and included various labs, quizzes and training videos offered completely free of cost!
