

## **S4 MTech (ES) students complete NPTEL courses**

The students of S4 M Tech (Embedded Systems) batch successfully completed various NPTEL online certification courses of the January'2020 in areas related to their main project. These students have registered for the final

examination. But NPTEL could not conduct the final online examination due to the COVID-19 induced national lockdown. So a modified pass certificate based on the average assignment score was issued to the students. NPTEL is planning to conduct the final examination in February 2021. The details of the courses are listed below.
