

# CSE student develops E-commerce website

VISHNU ANILKUMAR

Vishnu Anilkumar (B Tech CSE S4 B) developed an online e-commerce website which offers agricultural products like cross laminated tarpaulin, agricultural grow bags, agricultural shadenet , well nets etc. The website was developed with the help of the Shopify platform. The website has a secure payment gateway called Razorpay integrated with it and it also offers COD (cash-on-delivery) checkout also . The website also offers free shipping. The technologies used were Shopify, Razorpay (payment platform) , feed for Google shopping (or conversion tracking) and Google analytics to track customer visits and to re-target frequent customers.

To visit the website click [www.vdstores.in](http://www.vdstores.in).
