

Energy Survey by NSS volunteers

ENERGY SURVEY

The NSS units of Vidya conducted an Energy Survey to collect details of energy consumption in the households of the NSS volunteers. The volunteers were asked to fill a detailed Google Form with information about the energy consumption of their households. A total of 75 questions spanning over 30 sections were asked in the survey including details like consumer information, electrical installation etc.

The survey was conducted as part of APJKTU National Service Scheme's "Sae Energy, Save Future" campaign. Over 208 volunteers took part in the programme.
