

# Vidya students placed in SOTI with a starting package of Rs 7 lakhs

VAISAKH UNNIKRISHNAN

JIJIN K HARIDAS

## Placements in

SOTI.

SOTI Technologies is a Canadian company with offices in India at Gurugram and Kochi. They are a technology company and offer integrated solutions for mobility and IOT to enable businesses. SOTI is into enterprise mobility management, with solutions to simplify business mobility which eliminates downtime. To enable this SOTI provides the SOTI Snap which is a cross-platform and a rapid application development solution.

SOTI's is a unique recruitment drive: no eligibility criteria, no cut-off grade, and even a student with 'n' number of backlogs could appear! They look for pure talent and capability. But the selection process which is basically

problem solving using computers is often a tough nut to crack. Fresher starting salary begins at Rs. 7 lakhs per annum. Two of Vidya students did indeed crack the nut!

Congratulations to the winners!!
