

ECE faculty members serve as resource persons in AICTE sponsored national FDP

Mr. Ramesh CR

Mr. Rakesh VS

Mr Ramesh C R and Mr Rakesh V S (Asst. Professors, ECE Dept) served as resource persons in a five-day online National Faculty Development Programme on “Robotics & Automation” sponsored by AICTE Training And Learning (ATAL) Academy. The FDP was organized by the Department of Computer Engineering, Government Women’s Polytechnic College, Nedupuzha, Thrissur to the teachers of AICTE approved institutions during 6 – 10 September 2021.

Technical lectures along with hands-on sessions were held for all the 17 continuous sessions of the FDP. The topics discussed included “Open source embedded product development tools for robotics programming, sensor and end-effector interfacing in robotics, speed and direction control of

wheeled robots and UiPath Tools for developing Robotic and Automation Process (RPA) based applications.”

ATAT

ATAT is a unique program of Government Women's Polytechnic College, Thiruvananthapuram, Kerala, India. It is a self-funded program that aims to provide quality education and training to women in the field of Information Technology (IT). The program is designed to equip students with the skills and knowledge required for a successful career in the IT industry.

ATAT is established with the vision to empower women to achieve their full potential in the IT industry. The program is designed to provide quality education and training to women in the field of Information Technology (IT). The program is designed to equip students with the skills and knowledge required for a successful career in the IT industry.

Faculty Development Program for Robotics & AI

This program is designed to provide faculty members with the latest knowledge and skills in the field of Robotics and Artificial Intelligence (AI). The program is a self-funded initiative of Government Women's Polytechnic College, Thiruvananthapuram, Kerala, India. It aims to enhance the quality of education and training provided to students in the field of Robotics and AI.
