

Cracking IBM CodeKnack, securing placements in top companies: Placement news on 2022 pass out students

Anjana T A, a student of the 2022 pass out batch, cracked the IBM CodeKnack which is IBM's national qualifier selection process for women candidates held in October 2021. Congratulations for being shortlisted for placement at IBM.

As many as four M Tech students of the 2022 pass out batch have been placed with TCS after the recently held interview rounds.

IBS is a leading solution provider in the aviation, engineering, financial, and banking domain. After the

interviews held on November 23, 2021 four B. Tech students are placed with IBS Software. Congratulations to one and all !
