

CSE Dept organizes two-day workshop on Data Science using Python

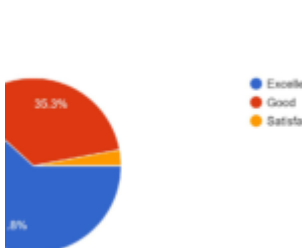

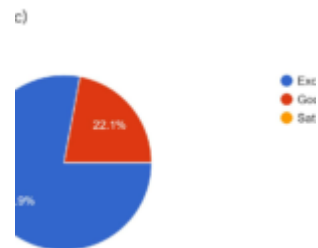

The CSE Dept organized a two-day workshop on “Data Science Using Python ” on 7 -8 April 2022 for students of various polytechnic colleges. The workshop was organized to provide hands on experience on Data Science using Python. More than 80 students registered from different polytechnics like Govt Polytechnic Colleges at Chelakkara, Kunnampulam, Nedupuzha, Triprayar and MTI Thrissur. The sessions were handled by Mr Nakulraj K R and Ms Mahalakshmi A, Assistant Professors in CSE Dept.

The inaugural ceremony was held at 10.00 am on 7 April 2022 at the Common Computer Center of Vidya. Dr Ramani Bai V (Prof and Head, CSE Dept) welcomed all dignitaries and participants. Principal Dr Saji C B inaugurated the workshop and delivered inaugural and presidential address. Mr Nakulraj K R gave a brief overview of the workshop. Ms Reshma Sudhakaran (BTech(LET), S4 M.Tech Student, CSE) shared her experiences at

Vidya. Mr Arunlal T M (TI, CSE and Coordinator of Workshop) delivered the vote of thanks.

At the end of the workshop, a feedback session was also arranged. Participants shared their experiences and made positive references about the workshop. Dr Ramani Bai V presented mementos and certificates to the resource persons. Participants were awarded e-certificates for their participation.

out Introduction to Data Science

the benefits you got by attending this programme.

AN MORE ABOUT THE DATA SCIENCE

the basics of the data science and the python

stand about data science and its importance

end of data science.

portunity to attend this class, and studied about new thing thanks to VIDYA A J TECHNOLOGY.

about data science and basics of python also get the notes.

portunity to attend this class because from this classes we can learn and its the basis of introduction to data science using python thanks to vidya academy for giving this opportunity to us.

I like about data science using python.

Other suggestions/remarks

really short and it would be really good if time was little bit longer

more details about data science that really good class.

python.

the duration to 3 or 4 days

RE-EXTEND PROGRAM INTO 3/4 DAYS

ing is fine and excellent. I hope there will be more class.

ld have been better if the classes were up to one week.
