

# Aptitude training for final year students

With the advent of placement season for the 2023 graduating batch a quick round of general aptitude refresher training was provided which was open to all the students of the 2023 graduating batch. The focus of these three full day training was on numerical skills and logical reasoning skills which are often used to evaluate fresher candidates in the recruitment processes. For the MCA students the training was conducted between the 22nd and 24th of August 2022. For B. Tech students the refresher training was organized between the 12th and 14th of September 2022. Wishing all students the very best for the campus recruitment drives.
