

# ECE Dept conducts one day workshop for final year ECE students

With an aim to explore new areas relevant to the topic, DCT (Digital Core Technologies), one of the leading companies in the Embedded System market conducted a one day workshop for the students of final year ECE students (2019 -23 Batch) on 10 October 2022.

The workshop was aimed at the students who have open interest in building a career in Embedded / Electronics Product Design and Development. The workshop was lead by Mr S Thomas (CEO, DCT ) and the session was assisted by Mr Nidhin, Mr Abhilash, Ms Anjali and Mr Surya Dev (Alumnus of Vidya, 2017-21 Batch, ECE Dept).

Around 60 final year students have attended the workshop. Application level design concepts regarding circuits, microcontroller, microprocessors and digital circuits were presented in the workshop. Students have gained knowledge in

core technologies by attending this session.
