

AIML Dept conducts a talk on “Career opportunities in AIML”

Artificial intelligence (AI) and Machine Learning (ML) are one of the most trending technologies for creating intelligent systems. Vidya has started an additional B Tech course in ‘Artificial Intelligence and Machine Learning (AIML)’ from the current academic year (2022-23) in order to cater to the increasing demand in emerging areas.

The Dept of Artificial Intelligence and Machine Learning conducted a motivational and career talk on ‘Career opportunities in AIML’ on 07 November 2022 for the first year B Tech students of the Dept. Mr Paul Chackola (Head, Training and Placement Cell) handled the session. He explored the current placement scenario in the domains of AIML. He emphasized the importance of doing internships and value added courses in getting placements. An open discussion was held at the end to resolve all the queries in the minds of students.
