VYVIDH'23 - REPORT

ADWAYTHA (MCA DEPARTMENT)

17th & 18th March, 2023

VIDYA ACADEMY OF SCIENCE AND TECHNOLOGY

The MCA department organized several events in association with the Vyvidh'23 on 17th and 18th of March. The entire students along with the

Faculties had put forward their best effort for the success of the events.

The main event of MCA department was "ADWAYTHA". Adwaytha was an informative event for students as well as the visitors. The event was an exhibition of hardware components. It consisted of components from various generations. The hardware hub was a beautiful add-on to ADWAYTHA , where the students exhibited their skill in reassembling the hardware components.

The technical events were competitions of BLIND CODING, CREATI and WEBPAGE REPLICATION . As the name sounds they were really exciting and helped the competitors to bring out their skill in coding . The non-technical events like RESPAWN and TROLL MAKING were also conducted.

The DEPARTMENT PAVILION exhibited ample information about the achievements of MCA students and various activities hosted by the department.

DEPARTMENT EXPO

The department events kick started with the expo that included achievements and lending ears to the history of the MCA department. It was designed as railway tracks and the various milestones as stops throughout the journey.

HARDWARE SHOW

One of the main attractions of the event was the hardware show that displayed several hardware and other components. The hardware included old generation computers, mother-boards, different generations of printers and several other components.

The MCA students also arranged a hologram projector which provides three-dimensional projection which can be projected through glasses.

BLIND CODING

The participants were asked to type a certain code in limited time with the monitors screen in off state and the one with the best and error less

code was awarded as the winner.

CREATI

The participants were asked to generate images using AI on the topic family.

WEB PAGE REPLICATION

The participants were asked to replicate a certain web page in given time and the one with exactly the same styling and design would be awarded.

TROLL MAKING

The participants will be asked to create trolls on a given topic.

RESPAWN

The gaming will be set up in the time constraint at different levels to procure winners.

STALL

The department also had a food stall in the college parking with drinks and snacks. The students were having their first experience running some business and the response from the customers was so gratifying.

Every event had great response from the students, teachers and everyone who surpassed through the MCA block. The department students coordination as our event title ADWAYTHA in sanskrit refers to unity , were so strong that it didn't even had a little drift in the smooth functioning of the events and to specially acknowledge the VICA staff coordinators and department teachers who were always there to support and provide guidance for the above.

We reflect our sincere regards to the college, principal and the Vyvidh'23 coordinators for giving us this opportunity to represent our department in such a platform.
