

AIML Department

The Department of Artificial Intelligence and Machine Learning hosted Vyvidh '24 during 29 February to 01st March our college. The main Event of our Department was Emmerzo, the ultimate Robotic Expo. The Robotic Expo was collaborated with iHUB and it showcased more than 20 robots including Humanoids, robots etc. This event was a new experience for the students and faculties

Demonstrations and explanations about the robots displayed were given by the staff of iHUB. This was the first time a Robotic Expo was conducted in our College. Next event was the Photo Booth. The most attractive part of this event was the chance to get instant photos with your friends in a short period of time. We are hundred percent sure that the people who experienced this chance were lucky to stick the photos with their loved ones in their hearts forever through this Photo Booth. Third Event was Code Matrix, the opportunity where you can showcase your coding skills. This event was a grand success.

The first prize was given to Athul Krishna (S6, CSE Dept) second prize to Karthik H (S4, CSE Dept). Through the 'Fun Unlimited', the Dept gave ultimate chance to the audience to bring out their childish nature by playing several fun games. These games were made the audience energetic and vibrant .

The game EFootball made the players showcased their football skills. The winner of this fabulous game was Akshay S Paniker. The last event was Battlefield mania, the ultimate pubg game.. The spirit and enthusiasm shown by the players was mind blowing. The second semester students from CSE Dept won this battle.
